PROFESSIONAL PROFILE

Fresh Graduate in Informatics Engineering from UIN Sunan Gunung Djati Bandung with a GPA of 3.87, with practical experience in Web Development, Data Analysis, Machine Learning, and Computer Vision. Proficient in JavaScript, TypeScript, React.js, Next.js, HTML, CSS, Python, SQL, Microsoft Excel, and Power BI for application development as well as data processing, analysis, and visualization. Experienced in applying Machine Learning and Computer Vision to image classification projects. Possess strong teamwork, communication, attention to detail, and adaptability skills, with a strong enthusiasm for developing expertise in technology and digitalization.

TECHNICAL SKILLS

- **Frontend Development:** JavaScript, TypeScript, React.js, Next.js, HTML, CSS, Tailwind CSS.
- **Data Analytics:** Data Analysis, Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing, Data Visualization, Statistical Analysis, Data Reporting, Dashboard Development.
- **Business Intelligence:** Microsoft Excel, SQL, Power BI, Looker Studio.
- **Programming & Libraries:** Python, Pandas, Matplotlib, Seaborn, Plotly, Java.
- **Machine Learning & AI:** Machine Learning, Deep Learning, Computer Vision.
- **Tools:** Git, GitHub, Visual Studio Code.

PROJECT EXPERIENCE

AI-Based Waste Classification

2026

Undergraduate Thesis

- Developed a Machine Learning model using Python and Computer Vision techniques for household hazardous waste classification.
- Performed data collection, preprocessing, model training, and evaluation to improve classification performance.

Student Academic Data Analysis and Dashboard

2025

Data Analysis Project

- Conducted exploratory data analysis (EDA) using Python and Pandas to identify patterns in student academic and financial data.
- Analyzed GPA, study programs, payment status, scholarships, and socioeconomic factors to generate data-driven insights.
- Developed an interactive dashboard using Looker Studio to present KPIs, visualizations, and analytical findings.

Student Academic Performance Analysis

2025

BNSP Data Analyst Certification Project

- Prepared and integrated academic, attendance, and financial datasets using Python and Pandas based on defined data requirements.
- Performed data validation and cleaning, including duplicate handling, data transformation, and selection of relevant records for analysis.
- Evaluated academic performance across study programs and analyzed relationships between attendance, GPA, payment status, and scholarships.

Skinthesia Website

2025

Front-End Developer

- Built a responsive and interactive skincare platform using React.js and modern CSS frameworks.
- Integrated RESTful APIs with the backend team to support dynamic content and application functionality.

SignText

2025

Front-End Web Application

- Developed a responsive web interface for a sign language translation application using modern front-end technologies.
- Designed and implemented user-friendly UI components to display sign language input and translated text.

Database Management System – PostgreSQL

2024

Database Management Project

- Designed and implemented a relational database using PostgreSQL, including schema and tables with primary key, foreign key, unique, and check constraints.
- Performed CRUD operations using SQL and validated database constraints through query testing.
- Configured database users and roles with different access privileges, including CRUD and read-only permissions.

Midang Village Website2025

Front-End Developer

- Designed and developed an informative website to support the digitalization of public services and information for Midang Village.

GoConvert2024

Android Application

- Developed an Android application that provides calculator functionality and currency value conversion to support everyday calculations and financial conversions.

Hijab (Hijaiyah Belajar)2024

Augmented Reality Application

- Created an educational Augmented Reality application to support interactive learning of Hijaiyah letters.

EDUCATION

UIN Sunan Gunung Djati BandungBandung, Indonesia

S1 Teknik Informatika — GPA: 3.872022 – 2026

Relevant Coursework: Web Development, Front-End Development, Database Systems, Software Engineering, Artificial Intelligence, Machine Learning, Computer Vision, Data Analysis, Data Visualization, and Mobile Development.

ORGANIZATIONAL EXPERIENCE

CSSMORA UIN Sunan Gunung Djati Bandung2024 – 2025

Economic Resources Secretary

Student Executive Board, Faculty of Science and Technology2022 – 2023

Creative Economy Secretary

CERTIFICATIONS & TRAINING

- Data & Analytics:** Associate Data Analyst BNSP — LSP Data (2025); National Exam Prep Associate Data Analyst — Cybertrend Data Academy (2025).
- Professional Tools & Business:** Microsoft Office Specialist – Expert — Karirnex (2026); English for Business Communication — TBI Bandung (2025); General Intensive English Program — English Domestic (2025).
- Web Development — Dicoding:** Coding Camp Front-End & Back-End Developer with DBS Foundation (2025); Back-End Pemula (2025); Web Intermediate (2025); Fundamental Front-End (2025); Dasar Web (2025).
- Programming Fundamentals — Dicoding:** Dasar Pemrograman JavaScript (2025); Git & GitHub (2025); Logika Pemrograman 101 (2025); Dasar Pemrograman (2025); Memulai Pemrograman Java (2024).

ACHIEVEMENTS

- Microsoft Office Specialist – Expert** — Karirnex (2026).
- Graduated with Distinction – Coding Camp 2025** — Selected as one of 2,500 participants from 63,000 applicants.
